“Antone Canyon, Nevada ~ property option sold”

Senator Minerals Inc (“the Company”) announces that it has entered into an agreement with Golden Spike Mining, a Nevada corporation, which effectively sells Senator’s interest in the option to acquire the Antone Canyon property. Golden Spike will pay an amount equal to what the Company has spent on property acquisition and exploration work to date.

While the Antone Canyon property is considered to have significant exploration potential for gold, the directors have elected to focus the major part of the Company’s resources on the Northern Nevada Rift area, where the Company is in the process of acquiring a portfolio of highly prospective properties.

This News Release was prepared on behalf of the Board of Directors, which accepts full responsibility for its contents.
