

SENATOR MINERALS INC

NEWS RELEASE

30 September 2004

SNR: TSX-V

2004-10

“Acquisition: Cortez South property, Cortez Hills area, Nevada”

Senator Minerals Inc (“the Company” or “Senator”) announces that it has acquired through staking a 100% interest in the Cortez South property, located in Lander County, Nevada.

The Cortez South property, comprising 36 claims totaling 720 acres, is situated approximately 13 kilometers (7.8 miles) south-southwest of the Cortez Joint Venture’s (CJV) Cortez Hills gold deposit, 6 kilometers (3.5 miles) east-southeast of the Toiyabe gold deposit, and immediately south of Bullion River Gold’s Wenban Spring property.

The Cortez South property is in the western part of the northwest-trending Battle Mountain/Eureka mineral belt which contains productive, bulk-mineable, sediment- and volcanic-hosted gold deposits including Pipeline/South Pipeline, Cortez Hills/Pediment, Cortez, Mule Canyon, Hilltop, Tonkin Springs, Gold Acres, Gold Bar, and Ruby Hill, which account for over 22 million ounces of gold. This northwest trend is the dominant control orientation for Carlin-type sediment- and volcanic-hosted epithermal gold deposits in the Cortez region.

Senator Minerals Inc is a TSX-V-listed junior exploration company with a diverse portfolio of properties in North America. In addition to its 100% interests in highly prospective leased gold properties in the Northern Nevada Rifts area and its recently acquired property in the Cortez Hills area, Senator has options to earn 50% interests in the Key and Okey high grade copper properties in north-central British Columbia, a 100% interest in the Taurus copper-moly deposit in southeastern Alaska, and a 1% precious metals royalty on the Rosebud gold prospect in northwestern Arizona.

This News Release was prepared on behalf of the Board of Directors, which accepts full responsibility for its contents.

ON BEHALF OF THE BOARD
