SNR # 2007-9

“Airborne Survey Commences on Geikie River Uranium Target”

Senator Minerals Inc (“Senator” or “the Company”) reports the commencement of an airborne Tempest EM survey over the Geikie River claim in the eastern Athabasca Basin, Saskatchewan. The Geikie River claim, which adjoins the South Cigar Property (IUC/JNR Resources), has potential to host unconformity-style uranium mineralization associated with conductive zones, similar to that discovered by IUC/JNR Resources at Moore Lake, which lies on trend to the southwest.

The Tempest system is a leading edge geophysical survey tool that was recently tested over the Midwest Mine where it demonstrated resolving capabilities superior to traditional time domain systems. The objective is to inspect conductive horizons to a depth of 300 meters on the Geikie River claim. Survey flight lines are to be flown in a northwest - southeast direction at 200 meter flight line intervals with some infill flying at 100 meters. Tie lines will be flown perpendicular to flight lines at 2 kilometer intervals. The total survey area will encompass approximately 562 line kilometers and is scheduled to take up to 5 weeks to complete, with interpretation of data available approximately 8 weeks thereafter.

+++++

Senator Minerals Inc is a TSX-V-listed junior exploration company with a diverse portfolio of property interests in North America.

Senator has a 100% option interest in the Geikie River uranium target in the eastern Athabasca Basin, Saskatchewan, one 50% and four 100% lease option interests in five highly prospective Midas-style targets in the Northern Nevada Rifts area, a 100% interest in two prospects in Nevada’s Cortez Hills area, and a 100% interest in the Taurus copper-moly-gold deposit in southeastern Alaska.

Senator holds 1% NSR’s on the Rosebud gold-silver prospect in northwestern Arizona and on both the Okey and Key high grade copper prospects in northeastern British Columbia.

This News Release was prepared on behalf of the Senator Board of Directors, which accepts full responsibility for its contents.
