SNR # 2008-9

“Drill Program Commences on Taurus Cu-Mo-Au Property, Alaska”

Senator Minerals Inc (“Senator” or “the Company”) reports that its 2008 summer drill program is underway on the Company’s 100% owned Taurus property in southeastern Alaska.

Drilling objectives include:

- testing parts of the zone of anomalous IP chargeability that covers a total area of approximately 10 square kilometers and includes some coincident copper-in-soil and molybdenum-in-soil anomalies; and
- testing depths greater than 900 feet in areas where earlier drilling to 908 feet terminated in mineralization grading 0.55% copper.

+++++

Senator Minerals Inc is a TSX-V-listed junior exploration company with a diverse portfolio of property interests in North America.

Senator has a 100% interest in the Taurus copper-moly-gold deposit in southeastern Alaska, one 50% lease option interest in a bentonite target and a Midas-style gold-silver target near Midas, NV, four 100% lease option interests in highly prospective Midas-style gold-silver targets in the Northern Nevada Rifts area, a 100% interest in two gold prospects in Nevada’s Cortez Hills area, a 100% option interest in the Geikie River uranium target in the eastern Athabasca Basin, Saskatchewan, and an option to earn a 100% interest in the Mékinac property in Québec.

Senator holds 1% NSR’s on the Rosebud gold-silver prospect in northwestern Arizona and on both the Okey and Key high grade copper prospects in northeastern British Columbia.
